

CCS Boiler

(CCS logo) Creative Community Singapore (CCS) is a key initiative by the Ministry of Information, Communication and the Arts, in partnership with the Private, People and Public sectors.

Launched in July 2005, CCS seeks to position Singapore as a Land of Opportunity by supporting the national drive to develop the Creative Industries (Arts and Heritage, Design and Media sectors). CCS also aims to empower individuals, teams and organizations to initiate and pilot cutting edge projects that will unleash individual and community creativity, nurture creative ideas and build demand and capabilities for the Creative Industries by providing various forms of support, including facilitation, marketing, capability development and co-funding.

For more information on CCS, please visit www.creativecommunity.sg.
